

ROLL CALL DRIVE CLOSES TONIGHT

Workers Have Acquitted Themselves Well And Encouraging Report Is Expected At Last Meeting.

The Roll Call Drive closes with the meeting tonight in the Y. M. C. A. at 6:30.

In addition to the city workers, representatives from each election district in the county have been invited to be present.

With the hard work which has been devoted to the cause of the Red Cross by earnest workers throughout the city and county, and which is being continued up to the very closing hour of the drive, it is believed that an encouraging report will be submitted tonight when the final returns are checked up.

Roll Call Chairman John E. Mahar in a statement this morning, expressed his appreciation of the faithful and loyal work which has been done by the campaign workers of the city and county. They faced a most difficult task in trying to reach every adult in a population of more than \$0,000. They are deserving of commendation for the enthusiastic and unselfish service which they have given to the accomplishment of this task.

Chairman Mahar, also spoke most enthusiastically of the splendid co-operation of the press and of the various special committees to which responsible tasks have been entrusted.

As the Red Cross service flags will be displayed throughout the year, the roll call committee wishes to call special attention to the fact that 1918 service flags should not now be displayed but that all flags should be those for 1919 membership. The

1919 flags have a double border and are thus readily distinguished from 1918 flags.

Tonight's meeting is expected to be large and enthusiastic and well calculated to bring to a worthy close the last of the great drives of the year.

TYPHOID CLAIMS DAVID MARKSON

After Surviving Hard Fighting in Argonne, London Young Man Dies In Officers Training School.

Henry Markson of 91 West Union street has been notified by the war department that his son, David, died in France of typhoid fever on Decem-

over 7. He left here in February last and was a member of Co. B, 306th Infantry, 77th Division. A letter dated November 21 was the last heard from him by his family and in it he said he was well and expected to be transferred to a camp where he could try for a lieutenant's commission shortly. Evidently at this camp was where he died.

Markson went through severe fighting in the Arconne Forest, and had been slightly gassed and slightly wounded in the leg, but had recovered from these injuries.

In addition to his parents, the young man is survived by five brothers, two of whom, Morris and Nathan, are in service in France; the others are Abram, a dentist with Dr. Levitas, and Samuel and Harry at home. Levitas is his sister, and two other sisters, Ruby and Mabel, reside with the parents.

WILLIAM H. MOFFITT WANTED.

W. H. Moffitt, Real Estate Operator Has Made Money Very Fast.

Police headquarters has been requested to watch out for William H. Moffitt, real estate operator in New York city, who is wanted on a grand larceny charge, a general charge arising from a deal with Police Commissioner Leach. Moffitt is said to be a fugitive from justice. He has a chain of offices in forty large cities from coast to coast.

There are ten complaints being investigated against Moffitt. Investigators ascertained Moffitt transacted business of more than \$1,000,000 a year and say that in ten years past he amassed a fortune of more than

Several years ago a real estate man from New York named William H. Moffitt bought a big section of land in the city of St. Paul, Minn. He called this city, known as the Pettit and Constant properties, and sold building lots at auction. He still owns some of the lots.

Quite a Change in Weather.

Sunday last year the thermometer registered 25 degrees below zero, while Sunday of this year a heavy rain storm swept over the city. The first department last December here has been casting snow from the city streets from November 1 to 18. Last year they were busy cleaning up dirt from the streets.

GEORGE K. HORTON, OTTUMWA WIZARD

Former Well Known Kingston Politician and Horse Dealer Earns Plaudits of Iowa Paper as He Plans Giant Land Development.

The friends of George K. Horton, well-remembered in Kingston as a live-wire horse dealer and later a real estate broker will no doubt be interested that Senator Horton is still on the firing line and that he is making good. Mr. Horton was called Senator here because he was a candidate for state senator at one time on the Democratic ticket in this district, but failed election. He sold many carloads of horses true and kind in every harness for the high dollar in Kingston his sales stables having been a Mecca for hundreds of men from the surrounding towns and neighboring counties for several years. The Sunday edition of the Ottumwa Iowa Review, of December 15th with a glaring headline across the front page prints as news the following article:

Horton Capitalist, an Amusement After forty years 113 acres in heart of city receive magic touch. Plan for new homes in early spring, enterprise under way. Big land owner sees great future for Ottumwa, buys 1,000 acres in county.

The days of the magician are still with us. Only there is no seeming because the reality is a lived upriver from the Market street bridge from the majestic eminences of North Ottumwa in the near approach from the Union depot at the foot of Washington street.

From Kingston N. Y., to Ottumwa

George K. Horton became interested in Vapello county as an investor early in the autumn of 1918. Originally of Kingston N. Y. he established a residence at 2512 Forest street, Kansas City, Mo. He started his vast capital resources to work in the west. He was interviewed by the Review because of what he means to Ottumwa which is in the potential phase of most important magnitude.

Mr. Horton has operated heavily in this county. From the Clark & Smith real estate firm we learn his transactions have exceeded a half-million in the last three months. He has acquired and now holds a thousand acres in this county in addition to some South Ottumwa property.

Touches Heart Region of City

Referring to the first paragraph above Mr. Horton purchased the 113 acres that has been willow-nested for ages, for years idle and useless and a tax burden to those who held it. This tract is situated on the south-southeastern corner of the noble stream of the middle west, our Des Moines river. Save for an 8 acre sector at the south-west corner the western boundary begins at the river and north to the waterworks property thence east down the canal to race to the river at the north end of the Market street bridge the area almost a square in fact.

This 113 acres enriched by the accretions of silt from the surface wealth of a thousand Iowa farms will make a wonderful farm. It offers hundreds of gardens will in itself with amazing high valuation will doubtless justify the faith of the investor in measures of a thousand fold. Then comes the planning for new Ottumwa homes.

Plan for Scores of 1919 Homes

Mr. Horton's friend knows his city. He has speculated in Long Island in southern New York and understands probably as none even here in Ottumwa the possibilities of this tract. It has been secured by the fathers and sons of several generations that has been the habit of the home the fishermen the Gypsies and never the dream of making a respond to the call for property, even as a place for homes and other utilitarian purposes.

Do we welcome Mr. Horton? Answer your own questions from the bridge walk and other vantage points in viewing the old aged dotter, presages what is to follow.

Mr. Horton will not be in Ottumwa for more than a few days now and then his Kansas City home. He has headquarters and with his more than a thousand acres in the state of Missouri, the coming spring expected to command the larger share of his time.

Mr. Horton has a half page advertisement in the Review, the Red Cross campaign for members. Although he is still unable to get around as much as he did by reason of a long siege from an attack of locomotor ataxia being compelled to use crutches he is still in the ring as the reader of the above article knows. Mr. Horton expects to visit Kingston about the 15th of January. Mrs. Horton and family are residing at 47 West Chester street, in Kansas City. No word with her husband she has moved there recently.

26 Patients at T. B. Hospital

Already the gifts of money and promises of home made cake and jelly for the Christmas entertainment at the Tuberculosis Hospital are being received in generous amounts. But with twenty-six patients to be remembered one a little six-year-old, motherless girl it will be necessary to have as generous remembrance as possible in order to give these people, many of them able to sit up but not to get about, a real Christmas. It has been the custom in the past to tack away in a tiny envelope for each patient, a silver quarter of a dollar in order that they may have this little gift which will purchase postage stamps. Last year there was not quite enough to make this possible and as many stamps as the money could permit—after the purchase of the stamps the money was put into the envelope. Shall it be the other quarter this year or a few stamps people of Kingston?

Mystic Shrine.

The Ancient and Noble Order of the Nobles of the Mystic Shrine was founded 1,400 years ago at Memphis, Arabia. The modern order is of comparatively recent origin. It was founded at New York in 1871 by William J. Lawrence, the actor. It contains a record of the Arabic origin and on the altar rest copies of the Bible and the Koran. The Mystic Shrines are an entirely separate organization from the Masonic order. However, one of the principles of membership is that the applicant must be either a Scottish Rite Mason, or a Mason of the thirty-second degree, or a member of the order of Knights Templar.

A Torch of One's Own.

As Blatchford tells us: It is well to go for a light to another man's fire, but not to carry it to himself. Light is a torch of one's own. That is a possession worth having whether it be a candle burning on the pillow or a fire, open in the window. We cannot tell how far a little candle throws its beam, nor who is lighting the course by its flickering light. The most that we can do—and it is also the best that we should do—is to tend the flame carefully and to keep it steady.—Brendan Matthews

Keeping Out Flowers.

Most kinds of cut flowers will keep for a long time if they are completely immersed in water. Place the blossoms in bowls of water every night, and in the morning lift them out and rearrange them in the morning. The flowers will often appear as fresh as if they had been newly gathered.—Popular Mechanics Magazine.

St. James Church Notes.
The Christmas communion service will be held at 7 o'clock on Wednesday morning. The offering will be for the Syrian relief fund. All Christian people will be welcome at this lovely and helpful service.

The Christmas entertainment of the St. James school will be held on Friday night. That of the primary department was held on Saturday afternoon, being the best and most "bright" attended exercise in many years.

Christmas carols. "Bethlehem" by Maundrell will be given most ably by the choir of the First Dutch, Fair Street Reformed and St. James's churches. Here will be a large chorus.

The Epworth League service on Sunday night is meeting with great success, both the numbers and spirit being excellent.

Those who could not make their special Christmas offering last Sunday are asked to do next Lord's Day.

Tomorrow, Christmas Eve, the Sunday schools of the Spring Street German Lutheran Church, Rev. A. Schmidtkenz, pastor, will celebrate Christmas, beginning at 11:15. There will be as usual a large and beautifully decorated and electrically lighted Christmas tree. An elaborate program consisting of Christmas carols, dialogues, recitations, choir anthems and singing by the Sunday schools will be rendered in German and English. All members and friends of the church are cordially invited. On Christmas day service will be held at 10:30 a. m. and the holy communion administered. The subject of the sermon will be "The First Christmas Choir."

Christmas service with sermon and the Lord's Supper, in English, will be held on Sunday evening after Christmas. Communicants are urged to give their names at the parsonage.

The services for the great feast of the Nativity at St. Peter's Church will be of a most impressive character. Solemn Midnight Mass will be celebrated at 12 o'clock at which the Reverend pastor, Father Neumann, will officiate, assisted by two of the Redemptorist Fathers from Boston. Low Masses will be said at 7 a. m., the children's Mass at 9 a. m. and the second High Mass at 10:30 a. m. Solemn Christmas Vespers will be sung at 7:30 p. m. The following musical program will be sung by St. Peter's choir:

Solemn Midnight Mass.
Chorus—"Stille Nacht, Heilige Nacht"—arranged for mixed voices by J. R. Schwalbach.
Kyrie Gloria. A. Malley.
Offertory—"Adeste Fideles." Wiegand.
Graduale—"Lacrimatur Cœli."

Communion—Christmas melodies, arranged for violin and organ by J. R. Schwalbach.
Benediction. Dr. Wm. Volkmar.
The children will sing special Christmas carols at the 9 o'clock Mass.

Second High Mass, 10:30 A. M.
Kyrie Gloria. R. A. Torton.

ROOSEVELT NOT GOING ABROAD NOW

By Telegram to The Freeman.
New York, Dec. 23.—Colonel Theodore Roosevelt, through his secretary, today denied that he intended to go to Paris during the peace conference.

"There is absolutely no truth in the report," replied the colonel's secretary after he had read a dispatch to Mr. Roosevelt in which it was stated that the ex-president was expected in Paris in February. "Colonel Roosevelt has not made any plans for going to France. He may go in two months or six months or two years. He certainly does not intend to go near the peace conference."

MCARTHUR QUIZZED AT MILK INQUIRY

By Telegram to The Freeman.
New York, Dec. 23.—Charles McArthur, who alleges he was put out of business by the milk "trust," was the first of the farmers who began to testify today in the milk inquiry here being conducted by Assistant District Attorney John E. Dooling.

McArthur said that he had received letters threatening him if he did not join the Dairywomen's League of Dutchess county. When he finally agreed to join, he testified, he was eventually forced out of business because the league demanded a cent a hundred pounds for two years "back dues."

Salvage Shop Open Tonight.
The Red Cross salvage shop on Broadway will be open this evening until 10 o'clock. It will not be open again until Friday, so those desiring to inspect the innumerable useful articles on sale should take this opportunity. Next Saturday the shop will be open all day and evening.

County Court Jan. 6.
A term of county court will convene at the court house in this city January 6. Joseph M. Fowler, county judge elect, will preside for the first time. A trial jury will be drawn on Saturday for attendance at the term. There will be no grand jury.

How Cabinet Has Grown.
George Washington had only five cabinet officers—a secretary of state, a secretary of the treasury, a secretary of war, a postmaster general and an attorney general. A secretary of the navy was added under John Adams, a secretary of the interior under Taylor and a secretary of agriculture under Cleveland. The department of commerce and labor was created in 1903, under Roosevelt, and the department of labor was made separate under Wilson in 1913.

In Death Not Divided.

It is true that in several parts of China it is still considered an act of virtue for a woman to commit suicide publicly after the death of her husband. According to the law, the proceeding is actually legal in some provinces, and such is the state of public opinion that in districts where it is officially prohibited the authorities rarely interfere.

Now there are two ways of bluffing: one is to bluff, the other not to bluff. If you're a regular bluffer, you can often bluff by not bluffing, and—" Mrs. Newlywed—"I see, John, dear, but that game is too ridiculously easy. Let's play checkers."

A recent secretary of state who did not maintain an elaborate establishment said that his four years in office cost him \$100,000 in excess of the salary which he received."

Never Mind About Daddy.

It's your policy to be always bringing about what your daddy did. The contrast is not to your credit. It's ten thousand times more convenient to have your own bank account than to lean on his. As long as he honors the speaker of your indifference the teller will pay, but every check cashed on father's account is charged against your lack of one. Should anything happen to him his name would never get put on the credit list. Neither coat of arms nor the glory of your grandfather count much in a democratic age where the son of a merchantman can become governor of a great state and the son of a mud fish boy become president of the White House. In this great land of equal chance we hope the government of children will be kept from Missouri on the other hand.

Shows, in Urging All Possible Use of Wood Fuel.

Who would not rather spend an evening before a snapping wood fire in an open grate or fireplace than before a drowsy coal fire?

And who could ask a better excuse for a winter holiday than to go into the woods and let the echoes ring and the chips flying by felling trees for such firewood?

These are the two chief appeals in the campaign now being launched by the United States Fuel Administration.

Stumps should be cut as low as possible to avoid waste and save future trouble.

All wood large enough to be made into stove wood should be used. Six inch wood small enough so that one man can load it on a wagon.

Pine should be split smaller than hardwood so that it may dry out quickly. Hardwood burns fairly well even when green.

In cutting original growth forests, utilize old trees which are not fit for lumber.

Cut small trees of the poorer species, for all dead, diseased, deformed, and otherwise inferior material.

The wood lot will be the better for the removal of old trees which have stopped making growth, and of scattered staves and stunted sprouts.

Leave trees that are more valuable for lumber, fire, or other useful products than they are for cordwood.

Leave your thirty tons of the best quality wood 10 inches in diameter for the future crop.

The wood so that air can circulate freely through the pile.

New England, in particular, has much wood available within easy reach of large centers of population. The "Cut-a-Cord" Club of Belmont, six miles from Boston, was one of many similar organizations which proved a basis for wholesome days of outdoor sport and happy social evenings.

The Forestry Service will cooperate with the Fuel Administration, through state administrations, this winter in locating available supplies of standing timber and seeing that these areas suitable for other purposes will not be sold for firewood.

If there is not a "Cut-a-Cord" club in your community, why not organize one?

Here are some questions suggested from the Forestry Service:

URGE ACTION ON ROUNDOUT BRIDGE

Chamber of Commerce Pressing Com-
missioner Duffey to Let Contracts—
Doubt Reduction in Steel Prices.

The Chamber of Commerce is in communication with Edwin Duffey, state commissioner of highways, in behalf of immediate action for the construction of the Roundout bridge.

The Chamber of Commerce gave out this morning the following letter which it has just sent to Commissioner Duffey in response to a communication from him in reply to an earlier letter from the Chamber:

"We have given careful consideration at a meeting of the board of directors to your letter in regard to the Roundout creek bridge.

"We wish to assure you of our appreciation of your desire to see the bridge constructed at the earliest possible moment.

"In regard to possible readjustment in the price of steel, we are strongly inclined to believe it is very doubtful if further reductions will occur after the earliest date by which all necessary preliminary steps could be completed for the receiving of bids. We would, therefore, urge upon you immediate action in preparing to let contracts.

"You will appreciate that, in addition to the pressing need for the early completion of the bridge, which we have all recognized, we are thoroughly sympathetic with the tendency, which is becoming so general on the part of all those charged with the responsibility for public work, to press forward all construction work as rapidly as possible in order to help solve the problem of the readjustment of labor conditions by aiding in furnishing employment to all persons."

Matter of Mathematics.
A woman whose hobby was the psychology and the esoteric influence of colors, was deeply gratified one morning when her husband admitted that there might be something in her theory after all.

"Dawson told me something today, which seemed to go to prove it," he said. "Dawson?" questioned Mrs. Madison, amazed, for Dawson was the manager of her husband's stables.

"Yes," he says, "he says the bay colts are more than the grays." "Really? How does he account for it?" "Why, there are ten more bays than grays."

Charles Carroll.
Charles Carroll was the last to survive of the 57 men who signed our Declaration of Independence. He lived until 1832, having reached his ninety-fifth year.

He was the most eminent of the four men from Maryland, and was of Irish descent, the first member of the family to come to this country being also named Charles Carroll, who left England in 1689.

Amusement of Almon.

Almon off duty in France, according to Capt. William Butler of Omaha, amuse themselves in American ways. "Baseball takes the spare time of a lot of the fellows," he says. "And we've had some cracking good boxing bouts recently—ten and twelve-round matches that would make any bunch of fans go wild. In the evening, the boys can go into a cafe. The cafes aren't of the rough sort, and really cultured people gather there."

German Bombs.

German aviators in recent raids on Paris used a device like a rocket, with a clock movement, says Popular Science Monthly. The bomb on exploding releases a linen parachute equipped with a carbide containing a substance with a magnesium base. This is lighted automatically about 1,000 feet above the ground and casts a strong light over objects below it for two minutes.

Wasted Potash.

Every year a vast quantity of potash, equivalent to 200,000 tons of high-grade German potash, is lost through the flues of the factories making cement. Ninety per cent of this potash may be recovered and at a low cost, according to the United States department of agriculture.

Getting Full Value of Flowers.

Highly ornamental vases are attractive in themselves but, as flower holders, they may be said to be partial failures, as they do not serve their purpose to the fullest extent. They rather attract attention to themselves, than set off the blooms for which they are designed. A vase of plain material or color, or one on which the design is obscure, is more to be desired, as it presents the flowers in their full beauty, and does not distract one's attention. In the same way, a vase of lustre, of a shade that blends with the flowers it holds, is far more attractive than one of contrasting color. Vases that are to be used for all kinds of flowers might better be green, of a dull shade, as this resembles the plant coloring and is not noticeable.

How U-Boats Are Foiled.

"Baffle painting" is the latest development of marine camouflage, the idea being not to make the ship invisible, but to break up all accepted forms of a ship by masses of strongly contrasting colors, distorting her appearance so as to destroy her general symmetry and bulk, the result being to keep the U-boats guessing as to whether she is "going or coming." A practical use has been found for cubism, after all.—Boston Globe.

We Wish You All A Merry Christmas

ONE CENT A WORD ADVS. BRING RESULTS

HUNGER DRAWS THE MAP

A food map of Europe today shows not a single country in which the future does not hold threat of serious difficulties and only a small part which is not rapidly approaching the famine point. With the exception of the Ukraine only those countries which have maintained marine commerce have sufficient food supplies to meet actual needs until next harvest, and even in the Ukraine, with stores accumulated on the farms, there is famine in the large centers of population.

Belgium and northern France, as well as Serbia, appear on the hunger map distinct from the rest of Europe because they stand in a different relation from the other nations to the people of the United States. America has for four years maintained the small war nations of Belgium and northern France and is already making special efforts to care for their increased needs after the war needs, which with those of Serbia, must be included in this plan, are urgent in the extreme and must have immediate relief.

The gratitude of the Belgian nation for the help America has extended to her during the war constitutes the strongest moral force to continue our work there. The method the German armies followed when they sold and she was established once more in her own

Government the little nation's first thought was to express her gratitude to the Commission for Relief in Belgium for preserving the lives of millions of her citizens.

Germany, on the other hand, need not figure in such a map for America because there is no present indication that she shall be called on at all to take thought for the food needs of Germany. Germany probably can ease for her own food problem if she is given access to shipping and is enabled to distribute food to the cities with dense populations, which are the trouble centers.

England, France, the Netherlands and Portugal, all of which have been isolated from American supplies, have sufficient food to meet immediate needs, but their future presents serious difficulties. The same is true of Spain and the northern neutral countries—Norway, Sweden and Denmark—whose ports have been open and who have been able to draw to some degree upon foreign supplies.

Most of Russia is already in the throes of famine, and 40,000,000 people there are beyond the possibility of help. Before another spring there will be a million deaths in Russia. This applies as well to Poland and practically throughout the Baltic re-

gions, with conditions most serious in Finland.

Bolivia, Serbia, Rumania and Montenegro have already reached the famine point and are suffering a heavy toll of death. The Armenian population is falling each week as hunger takes its toll, and in Greece, Albania and Roumania so serious are the food shortages that famine is near. Although starvation is not yet imminent, Italy, Switzerland, Rumania and Turkey are in the throes of serious straits.

In order to fulfill America's pledge to world relief we will have to export every ton of food which can be handled through our ports. This means at the very least a minimum of 20,000,000 tons compared with 4,000,000 tons pre-war exports and 11,820,000 tons exported last year, when we were bound by the ties of war to the European allies.

If we fail to lighten the black eye on the hunger map or if we allow any portion to become darker the very people for which we fought and died will be threatened. Result and anarchy threaten the future. Should this European catastrophe of the Russian de-

fect and our fight for world peace will have been in vain.

Why malted milk was originated

—because of the impossibility of obtaining good milk at all times and in all places

To the North and South Poles
"Horlick's Malted Milk," writes
Captain Peary, "was always on
the firing line; no field party was
dispatched without it, and it
never failed to make good prompt-
ly and satisfactorily." Captain
Amundsen, discoverer of the
South Pole, writes: "Our way
to the pole is littered with boxes
stamped 'Horlick's,' giving full
evidence of the liberal use made
of your splendid Malted Milk."
Also taken by Steffansen and the
Scott polar expedition.

PREVIOUS to 1883 it was neces-
sary to add milk to all prepared
foods for the infant and invalid,
in order to make a properly balanced
diet. But it was difficult and often
impossible to obtain good milk in
cities and tropical climates.

The vital problem of how to supply
a reliable milk for people of all ages
in any climate that would be avail-
able at all times, was finally solved
by HORLICK of Racine, Wis.,
U. S. A., after years of labor and ex-
periment.

HORLICK discovered a process of
reducing fresh milk by careful evap-
oration in a vacuum to a powder form,
which contained all the valuable con-
stituents of fresh milk, would keep
indefinitely in any climate, and yet
be soluble in hot or cold water.

This was the first time in history
that milk was reduced to a powder
form, soluble in water, retaining its
natural qualities when dissolved; and
with all the valuable *Vitamines*

(which are destroyed by ordinary
cooking) preserved intact.

To good rich milk HORLICK
added the valuable extract of *Malted
Barley and Wheat*, containing all the
nutrition of these grains, and reduced
them to a powder form, with perma-
nent keeping qualities, and soluble in
water. It was found that by the
action of the Malt ferments on the
milk, its digestibility was markedly
increased over ordinary milk, so as
to render it easily assimilated by the
weak stomach of the infant, the in-
valid, and the aged.

This well balanced milk food was
thus perfected, which a third of a
century's experience has amply
proved capable in itself of supporting
infant and adult life.

This new milk food HORLICK
named *Malted Milk*; it has proved a
boon to thousands upon thousands,
from infancy to old age, of every
race and clime, and is to be found in
every city in the civilized world.

A blessing to the aged
Nutrition with digestibility
makes Horlick's Malted Milk the
ideal food for the aged. Maxi-
mum nourishment with a mini-
mum tax on the digestion

In Europe's great war hospitals
Large quantities of Horlick's
Malted Milk are being used in
the war hospital service of the
various allied nations, to the
alleviation of much suffering. In
hospitals all over the world, as
well as in the sick room, Horlick's
is endorsed and used by the med-
ical profession as a standard diet
for invalids and convalescents.
Sample package mailed free
upon request.

The standard food for babies
Hundreds of thousands of in-
fants, deprived of mother's milk,
have been reared on Horlick's to
robust childhood. Thousands of
photographs and testimonials
from all parts of the world are
on file in our office. Sample
package mailed free upon request.

Used by thousands of business workers

Walk into any soda fountain anywhere, at noon, and you
will see business men and women partaking of Horlick's
Malted Milk. More and more, business workers, profes-
sional men, and students are coming to realize how
heavy foods at luncheon dull mental alertness and im-
pair efficiency.

Horlick's Malted Milk is also put up in Tablet form. Very
convenient for business men, travelers, aviators, ladies
when shopping, etc., since a small package, sufficient for
a lunch or two, or a day's ration, may be kept on the
desk, in the home, or in the pocket.

NOTICE RETAIL DRUGGISTS NO MORE VAPORUB DIRECT BUY IT FROM YOUR JOBBER

Effective Immediately. No More Direct Shipments Will Be Made Retailers. All Shipments Now Go to Jobbers for Redistribution.

When the influenza epidemic struck the country and wiped out our warehouse and jobbers' stocks almost overnight, we were faced with the problem of distributing—to the stricken districts—in the quickest possible manner—our daily output of Vapo-Rub. We solved this by offering to ship direct to the retailers in these influenza districts, by parcel post prepaid quantities of not more than three dozen Vapo-Rub in any one shipment, and by shipping what was left from our daily production to our jobbers by express instead of freight.

This was costly, but it solved the problem for the time being. Now, however, we find that these small shipments are constantly increasing—

We have received as many as 1,306 in a single mail. It is becoming impossible for us to fill these promptly, and instead of distributing our goods more quickly, they are really slowing up the process.

We believe that we can serve you better now by reverting to our former policy of shipping exclusively through the jobber, and, effective immediately, no more drop shipments will be made.

While we have put on a night shift and have, thereby, about doubled our production, we are still unable to fill our back orders and won't be able to give each jobber all the Vapo-Rub he wants. Hence, it will be necessary for the jobbers to continue distributing Vapo-Rub in small lots only. But we will be able to furnish each jobber at least twice the quantity of Vapo-Rub that he purchased for the corresponding month last year, so there should not be any difficulty in your getting your pro rata share.

We feel that the public appreciates the service that the retail and wholesale drug trade have rendered the country in this time of stress. We wish to express to both branches of the trade our thanks for the kind cooperation extended us in our effort to meet this emergency.

BACK TO NATURE.

Office Work Distasteful To Many Returned Soldiers.

By Telegram to The Freeman.
London, Dec. 23.—"No more office work for me!" exclaimed a tanned private disporting his khaki-clad one hundred and seventy-five pounds on the edge of Y. M. C. A. Secretary A. H. Coar's desk in a corner of Eagle Hut, London.

Coar used to be a Holyoke, Mass. educator and he has learned to be inquisitive of the causes behind effects.

"You look capable of holding down a mighty fine, big office job when we all get back to America again," he said. "What got you displeased with office work?"

"It's not so much as it is the real pleasure and benefit of 'getting back to nature,'" said the American private. "When I left the Chicago house where I was a clerk, I weighed one hundred and fifty-seven pounds and was fairly healthy and I thought there would never be anything as interesting as life in the city. I was born there. I never knew what it was to live close to the earth. Now I've not only gained twenty pounds, but I've learned a lot of things about the real dignity of producing things."

"The men in the army have a tremendous respect for the folks back home who feed 'em, I tell you. When I go back home I'm going to work on a farm and sometime I hope to own two or three or four, with cattle and hogs and all that. I've heard dozens of city boys say the same thing over here. The war is going to result in turning thousands and thousands of Americans from their work in the cities to work on the farms. The agricultural interests of the old U. S. A. are going to have plenty of help offered 'em when the boys get home from this war. I may lose an arm, yet, but I'll bet I can drive a tractor, what?"

Judge Parker in Florida.

Judge Alton B. Parker has just returned from St. Louis, where he argued as counsel for the United Mine Workers of America, in appeal to the circuit court of appeals from a judgment against the United Mine Workers and affiliated unions and individuals connected with them for the sum of \$250,000 for triple damages and costs claimed by the American Coal Company for damages to its property during a strike in Sublet, Pa., in 1914. The principal ground relied on by Judge Parker in his judgment for a reversal of the judgment of the court in the first case was, that the supplemental evidence of the court in the first case was erroneous. Almost immediately after Judge Parker returned from St. Louis he left for Florida to get under way the work for the season upon his one thousand acre farm there.

The Only Way.

"I understand you began life as a 'newbie,'" said a friend to a "newbie of industry." "No," replied the "newbie," "some one has been making a fool of you. I began life as an 'oldie.'"

THE KITCHEN CABINET

A waiter may give service thoughtfully. He may be accurate, and neat and quick. But when one caters too blamed much to me, I feel disposed to tip him with a brick.

A VARIETY OF GOOD THINGS.

Try making Worcestershire at home. Put half an ounce of cayenne into a quart of the best

vinegar. Peel and bruise three cloves of garlic, mash fine five anchovies; bruise 12 whole cloves and two blades of mace; mix all well and shake thoroughly, cover tightly and let stand for a day or two. Then rub through a sieve, add two grains of powdered asafoetida and put the mixture in a bottle well-corked; let stand for ten days, then bottle and seal.

Salt Codfish, Creole Style.—Soak a pound of salt cod in cold water, bring to the boiling point and then remove the fish. Put into a large saucepan two tablespoonfuls of suet, add two finely-chopped onions, shake and cook over the fire; add a cupful of rice that has been partly cooked, the cod, a quart of tomato, salt and pepper to taste. Cook until the rice is tender, add a tablespoonful of butter and serve with croutons.

Boiled Tongue.—Buy a tongue which has been corned but a few days in the solution. Put on to boil and cook carefully until tender. Add a bay leaf, a clove of garlic, a small onion and a few cloves. When the tongue is cooked remove it from the stove and let it cool in its own liquor.

Fricassee of Fish.—Take a good-sized bass, carefully remove the skin, after cleaning the fish. Bone the fish and chop it fine. Cover all the bones and rough places with cold water—a pint or less will be sufficient—after it has cooked an hour. Beat three tablespoonfuls of butter to a cream, add a cupful of soft bread crumbs to the pint of strained fish stock, stir, add butter which has been mixed with the yolk of an egg, two tablespoonfuls of chopped parsley and pepper and salt to taste and a half tablespoonful of parmesan cheese. Add two tablespoonfuls of flour; add fish and form into balls. Brown in a hot pan with a little butter, add some fish stock, cover and simmer for 20 minutes. Serve cold with any desired sauce.

Nellie Maxwell

"From The Trenches To A Job."

It was a wounded soldier just returned who coined the slogan "From The Trenches to a Job," and tacked it to the Knights of Columbus. He was grateful to the Knights for services rendered him in this country before he went overseas, also for that which he received from them in the trenches abroad, and he felt indebted to them for the many comforts he received from the Knights while he laid wounded in a hospital. And the climax brought him a job at his former occupation through a Knights of Columbus Employment Bureau—hence the slogan.

An Amusing Error.

In the For Sale column of The Freeman Thursday night the Canfield Supply Co. made their advertisement for automobile heaters read \$150.00 but all they ask for them is \$15.00 although it seems practical that on a cold day you might consider them worth \$150.00.

SKILLED MINE WORKERS NEEDED

By Telegraph to The Freeman.

Washington, Dec. 23.—Approximately 15,000 mine workers are needed immediately to supply the nation with coal, the mining section of the employment service, department of labor, will report to the secretary of labor. Most of these men must be anthracite coal miners, many of them "key men," or those upon whom many unskilled laborers depend for employment. The report, which will be submitted about January 1st, will show that the progress of demobilization of the army, although slow, has kept pace with the demands made upon it by the coal mining industry and that the mining labor is being assimilated by the industry as fast as the men are released.

The biggest job, the report will show, is not so much the securing of the 15,000 men, as it is the keeping of the men now employed, at work. A tribute to the loyalty and faithfulness of coal miners throughout the country for their service during the war, will be paid in the report. The greatest demand for miners, the report will show, comes from Pennsylvania and West Virginia.

PORT EWEN.

Port Ewen, Dec. 23.—The Christmas entertainment of the Methodist Sunday school will be held in the auditorium of the church this evening. A very appropriate program has been arranged. Christmas songs will be sung and Santa Claus will appear with presents for the school. Come out this evening and bring your envelopes well filled for the suffering Armenians and receive your button as a slight recognition of your most needed gift. The members of the home department connected with the school are invited to be present. A pleasant and profitable evening awaits you.

Port Ewen Lodge, No. 656, I. O. O. F., will meet this evening at 7:30 o'clock in their rooms in Pythian Hall.

The members of the Dorcas Society gave Elsie Lowe a linen shower at her home on Schryver street Friday evening in honor of her approaching marriage to Alexander Secor of Kingston. Mid-week prayer service will be held in the Methodist and Reformed Churches on Thursday evening, December 26, at 7:30 o'clock. The topic at the Reformed Church will be "The Passing Year." Teach us to number our days. (Ps. 90:12.)

The young man who called at Card's drug store on Saturday morning and while there helped himself to a sum of money from the wallet in the drawer is known. He will save himself from criminal prosecution if he returns same immediately. Only the humiliation of his parents, who are law abiding citizens, prevents immediate proceedings. A word to the wise is sufficient.

Program of the Sunday school Christmas exercises at the Port Ewen Reformed Church on Wednesday evening at 7:30 o'clock in the Sunday school room of the church. The service entitled "White Gifts for the King" will be used. Program: Recitation—Julia Card. Song by School—Joy to the World. Scripture Reading: Prayer. Song by School—Holy Night. Recitation—A Christmas Welcome. Beatrice Proper. Greetings—Annette Munson. Recitation—A Story Flag. Howard Galbreath. Mary Polhemus. Song by School—Hark the Herald Angels Sing. Recitation—Giving. Ida Carney. White Gifts for the King. Reading: "The Legend of Cathay." Mrs. Harry Hotelling. Gifts by Classes. Recitation—White Stars of Christmas Shine. Cora Decker. Recitation—Hang up the Baby's Stocking. Edith Peck. Song—Good Night. Miss Etta Ellsworth's Class. Distribution of Candy. Games.

All are most cordially invited. The gifts of this service will be sent to the children of Armenia. Ice cream will be on sale. Owing to the inclemency of the weather only a few could recall themselves of the treat at the Reformed Church on Sunday night in listening to the song and story service. The special collection for books for the Sunday school library amounted to \$14.75. The service will be repeated next Sunday evening.

Mrs. B. W. Brainard of Railroad avenue has some very choice Golden Campine chickens. The Golden Campine is of Belgian ancestry which has been improved by the English. The English type has been more successful in America. In making their original type of Campines, the English used great care not only in the selection of well marked birds but also in the selection of birds that laid large white eggs. The American Campine is really beautiful. There are two varieties, the Silver and the Golden. The Golden has black and golden bay bars. In looks and habits they are like Leghorns, perhaps a little larger in size. The Campines are the kind of birds that fill the egg basket and carry home the prize. This fall Mrs. Brainard's Golden Campines won first prize at Syracuse and first prize at Piquette. At present there are cockerels for sale from \$4 to \$25. During the hatching season on May 1st, Mrs. Brainard's older birds have been Madison Square and Palace winners.

Taking Care of the Late Christmas Shoppers Has Been One of the Successful Services of Luckey, Platt & Co.'s Store.

Two more shopping days to Christmas. Two days that mean a hustle, bustle and fretful time, if you do not do your shopping efficiently.

To shop efficiently, buy in an efficient store. Here are some of the services that make your last shopping hours pleasing ones:

Everything for men, women and children can be purchased in this one store.

There are 35 stores in one.

There are three passenger elevators to assist you to the different floors.

There are 276 employees eager to be of service to you.

There is a Post Office and Parcel Post Station right in the building.

There are two rest rooms where you can rest awhile.

There is a free checking counter where you can check your excess bundles and wearing apparel while you shop.

There is a Transfer Trading System that enables you to purchase all of the goods throughout the store and not have to carry your packages from counter to counter and where you will not have to take out your pocketbook only once to make payment.

There is a merchandising check service where you pay a certain amount for the check and the check is good for its face value in merchandise throughout the store. This is good for those who do not know what to give their friends.

There is the largest stock of Christmas gift suggestions anywhere in the Hudson River Valley.

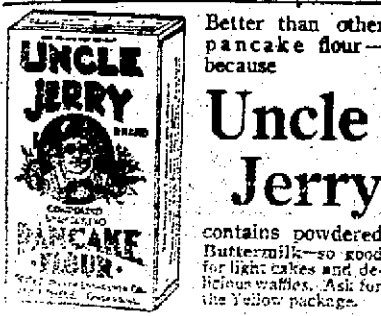

There are five motor delivery trucks to take the gift things to their destination.

Surely, all of These Efficient Services Suggest That This is the Proper Place for You to do Your Last-Minute Shopping

W. S. S. SALES IMPROVE VASTLY

The sale of War Savings Stamps is greatly improved Saturday and post offices were well patronized. The presentation of the handsome chevrons to all purchasers of W. S. S. and their enrollment in the War Savings Army of the United States is making a hit all over Ulster county and this city. Where the past few days cashing in of W. S. S. equaled or exceeded purchases today there were no cancellations and many sales. This is as it should be. Our soldiers and sailors are "Over There" in millions and we should keep our War Stamps and buy more for Xmas and New Year gifts, useful, ornamental, inexpensive and above all else patriotic.

The silk chevrons are on display at all post offices and by all letter carriers throughout city and county, including R. F. D. carriers.

Let everyone who can, buy one or more War Savings Stamps for Xmas and New Year's presents and make somebody happy.

New Pastor at New Palz Church.

This week there occurred at New Palz a very interesting service whereat the new pastor of the old "Palz" Dutch Church was installed. This service, presiding the Rev. Ernest Clapp D. D., was participated in by the Rev. Dr. Leighton Williams, rector of St. John's Episcopal Church, Kingston, and by the Rev. F. B. Seeler, pastor of the First Street Reformed Church, the full program being as follows:

Order of Service

Organ Voluntary, Mrs. D. C. Sevier
Anthem—Choir
Invocation—Rev. James Douglas
Pastor—Metropolitan Episcopal Church, New Palz, N. Y.
Reading of Scripture—Rev. Gerald H. Lewis, Rector of St. Andrew's Episcopal Church, New Palz, N. Y.
Sermon—The Cathedral of the Church—Rev. Leighton Williams, D. D., Rector, St. John's Episcopal Church, Kingston, N. Y.
Anthem—Choir
Reading of Installation Form—Rev. F. B. Seeler, President of Class, Kingston, N. Y.
Charge to the Pastor—Rev. C. P. Case, D. D., Pastor Reformed Church, Poughkeepsie, N. Y.
Hymn.
Benediction—Rev. Ernest Clapp D. D.

Unique Decorations.

No where in the city at the Christmas decorations more genuine and attractive than at the Old Dutch Church, where the colors of the American flag were well shown in the decorations. The Christmas decorations in place of honor. The decorations and in addition the service of the church, which are for sale give to the price in especially attractive appearance. These paintings by artists and on both sides of the water make gifts of beauty and time but enhance in value.

RED MEN MAKE GIFTS

To recipients at Annual Amos Celebration on Saturdays.

The Christmas tree festival at the annual Amos celebration of the Red Men, which was held at the T. B. Smith building, was a most successful one. The tree was a beautiful one, and the gifts were of great value. The children were very happy, and the festival was a most successful one.

INCH OF RAIN.

"An inch of rain" refers to the marks on a standard rain gauge as used for record purposes by the United States weather bureau. An inch of rain means 101 tons of water distributed over one acre of land.

Another American Triumph.

A European record for the most heavily laden freight train was established by a Western railroad when an American locomotive hauled a train 2,000 feet long with a load of 4,424 tons.

A Silenced Objector.

"You don't complain about me much as you used to," "I don't," replied Father O'Brien. "I've got to see an example of the way you keep the birds and happy and contented."

His Fatal Step.

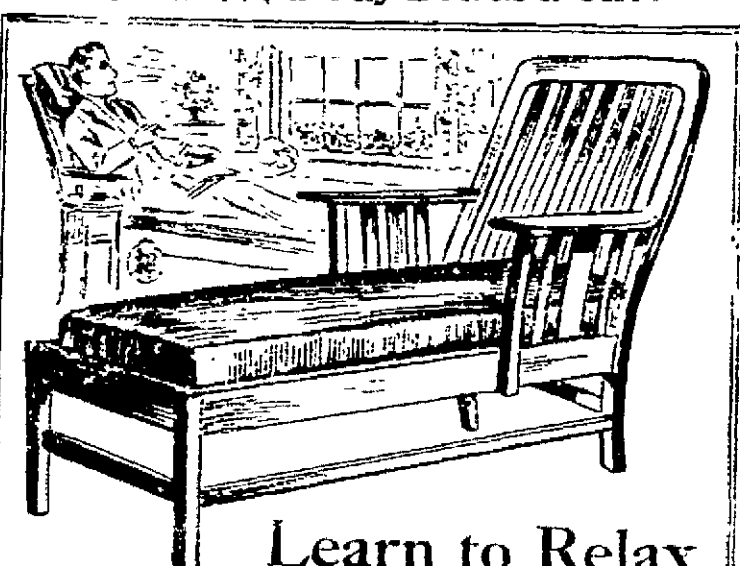

"My husband committed a very bad time before he proposed to me. He was very careful."

Newlyweds.

Stacy—You must not expect me to give up my childhood ways all at once. "That's all right," Grace said, "but an allowance from your mother just as if nothing had happened."

This is the most glorious Yule-tide Season since the first great Christmas Day. Music lends to the home an atmosphere of wholesome joy and peace that is the very essence of the Christmas spirit. With music's inspiration so all-pervading as it is at this time, is not an improved, refined, artistic phonograph a Christmas gift to be seriously considered?

In Memoriam.

In memory of my beloved brother, Martin J. McRack, who died in France.

Christmas day, will not be cheerful. While in France he was busy sleeping. Slightly among the dead.

With a heart so cheerful and true. In a happy world, he was living. In our hearts, we will keep him. Of our own kind, we will keep him. In our hearts, we will keep him. In our hearts, we will keep him.

Members of our church, we will keep him. In our hearts, we will keep him. In our hearts, we will keep him. In our hearts, we will keep him.

Members of our church, we will keep him. In our hearts, we will keep him. In our hearts, we will keep him. In our hearts, we will keep him.

Members of our church, we will keep him. In our hearts, we will keep him. In our hearts, we will keep him. In our hearts, we will keep him.

Members of our church, we will keep him. In our hearts, we will keep him. In our hearts, we will keep him. In our hearts, we will keep him.

Members of our church, we will keep him. In our hearts, we will keep him. In our hearts, we will keep him. In our hearts, we will keep him.

Members of our church, we will keep him. In our hearts, we will keep him. In our hearts, we will keep him. In our hearts, we will keep him.

Members of our church, we will keep him. In our hearts, we will keep him. In our hearts, we will keep him. In our hearts, we will keep him.

Members of our church, we will keep him. In our hearts, we will keep him. In our hearts, we will keep him. In our hearts, we will keep him.

Members of our church, we will keep him. In our hearts, we will keep him. In our hearts, we will keep him. In our hearts, we will keep him.

Members of our church, we will keep him. In our hearts, we will keep him. In our hearts, we will keep him. In our hearts, we will keep him.
